

QuickSilver® JUST GOT ANGRY!

- 100% Virgin UHMW!
- For hauling aggressive loads — pig iron, crushed glass, bottom ash, rip rap, auto fluff (not for hot materials)
- Save the weight on a stainless steel floor by using the HAULK instead - more protection, less weight
- If you love QuickSilver, just wait until you see how TOUGH the HAULK is!

OFTEN IMITATED
BUT NEVER DUPLICATED
